PROFESSIONAL SUMMARY

BCA student at Eternal University with practical experience building web applications using JavaScript, React, Node.js and Express.js. Familiar with connecting frontend interfaces to backend routes and working with REST APIs, while continuing to develop database skills with MongoDB. Seeking a Full-Stack Developer Internship to contribute to practical projects and grow through real-world development experience.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js

Backend: Node.js, Express.js, REST APIs

Database: MongoDB (learning and project practice)

Tools: Git, GitHub, Vercel

PROJECTS

AI Question Answering Web App

Web Application

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, Google Gemini API

- Developed a web app that accepts user questions and displays AI-generated responses.
- Implemented a backend endpoint to receive questions and return responses from the AI service.
- Connected the frontend interface with the backend using HTTP requests.

GitHub Profile

Smart Daily Task Manager

React Application

Technologies: React.js, JavaScript, CSS, React Context, localStorage

- Built a task-management interface to add tasks, mark them complete or incomplete, and delete them.
- Used React Context and a reducer to manage task state across the application.
- Stored task data in localStorage so tasks remain available after a page refresh.

Live Project

Student Progress Tracker

Web Application

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Mongoose

- Built a form to record student name, course name and completion percentage.
- Created Express routes to submit and retrieve progress records, with a delete route in the backend.
- Connected the backend to MongoDB using Mongoose for data storage.
